- Cost effective, proven excellent residuals
- UK designed and built
- Market leading cargo capacity
- Fully customisable options
- Highly versatile across a wide range of applications
- UK MCA Workboat Code of Practice Category 2

See reverse for full specifications

Meercat Boats' new innovative multirole workboat features landing craft capabilities, increased cargo carrying capability as well as superb performance, together with unsurpassed quality, and at an affordable price.

The MRV22 is Meercat Boats' largest multirole vessel suited to a host of workboat duties, whilst also featuring landing craft capabilities.

The Meercat Boat MRV22 is robust, versatile and ideal for a range of applications including civil engineering and aquaculture operations as well as logistical support.

As with all workboats under the Meercat brand, this vessel is designed and built in the UK and is fully customisable.

Meercat multirole workboats range from 14-22 metres, and are available in both conventional hulls, and innovative road transportable options for those locations which are challenging to access.
