

Versatile, road transportable NATO modular pontoon system ideal for use in civil engineering projects. Individual units can be easily connected to provide a range of different configurations for a variety of uses (work platforms, jetty, barges).

Type: NATO modular pontoons

Weight: 1.185 tonnes

Length: 4.22 metres

Load Capacity: 2.8 tonnes at 20cm freeboard

Breadth: 2.10 metres

Max Load: 4.80 tonnes at 0 cm freeboard.

Depth: 0.77 metres
